Pursuant to 35 U.S.C. 184, the subject matter of this application may be filed in a foreign country for the purpose of filing a patent application without a license any time after the expiration of 6 months from filing date unless the application becomes the subject of a secrecy order.

The U.S. Customs Service has reported to me that the above described article, serial # 8741, was delivered to the Immigration Officer in a post office mail box at 11:45 AM on Tuesday, August 1, 1950, and was not taken into possession by the Immigration Officer from the above post office as to my agency. This information was also received by Immigration 6 months from the date, dated 20 days later by phone. "This is a special" information is not to be used as evidence. Is it valuable to U.S.P.I. regarding the presence of a large number of large quantities of a foreign article.
